

Curling Club Reorganizes

Building Under Immediate Construction

After the organization of the curling club and an earnest effort to actually build a curling rink, the effort has met with considerable success, so the leaders say.

At a former meeting an executive committee was chosen and elected the members of which, met last Friday night in the town hall. The officers of the club and executive of the club are: Pres.—M. D. Plimpton, Vice-Pres.—Dr. Wallace, Secy.—Treas.—W. J. O'Callaghan and the executive committee are: M. L. Forsier, Jack Tel'oid and J. Guthrie.

At a meeting of the executive committee, Friday night, they reported very good success in securing donations and moral support toward the building of a new rink. A two sheet rink was decided upon and the ground was selected which lies just north of the Livery Bays. The ground was broken on Saturday and actual building commenced on Monday of this week, and every effort will be made to

complete it as soon as possible. Members of the Executive Committee stated that any one who desired to join should please get in touch with the Secretary. This added improvement will greatly contribute to the winter's activities and sports.

SUDDEN DEATH OF MRS. D. POTVIN OF HEATH

On Sunday, September 24th, Mrs. D. Potvin and daughter, of Heath, vicinity, had been visiting at the home of Mrs. L. LaPlante and were on the way home when Mrs. Potvin complained to her daughter that she was very ill and was dying, and requested that she hurry back to the home of the LaPlantes and within an hour she had passed away. We understand they came to this country from Lake St. John, Quebec about twenty-one years ago. She was forty-seven years old. The funeral will likely be held on Wednesday at 10:00 a.m. The community joins in extending sympathy to the bereaved family.

Adeline Rebekah Lodge Holds Open Meeting

Adeline Rebekah Lodge I.O.O.F. opened their doors to receive delegates to the District Meeting on Thursday evening of last week. A goodly number of representatives were present from many and under the direction of District Deputy Sister Linsmore the work of the delegates was soon transacted after which the male members of the fraternity were admitted along with a number of friends and it was gathered spent a very enjoyable evening to games and dancing.

A delightful luncheon was served in true Rebekah style and the newly decorated hall seemed to extend a hearty welcome to the guests, and much favorable comment was heard in regard to the new and commodious kitchen facilities lately installed which makes the I. O. O. F. hall one of the best in town for community gatherings, especially where dinners and luncheons are being served.

Those enjoying the hospitality of the Rebekahs numbered about fifty and all went home feeling they had spent a very pleasant evening. O.K. Rebekahs. Lots have some more.

Women's Missionary Society Hold First Meeting of Season

The Ladies of the United Church W.M.S. held their first meeting of the season on Tuesday, September 19th, at the church. A good number was present and the President, Mrs. Cousinier, took charge of the opening. Mrs. George Steel acted as Secretary and gave the minutes of the last meeting held in the spring, previous. Mrs. W. Washburn, in charge of the devotionals gave an interesting talk of experiences she has had. Mrs. George Clark then sang a solo, after which Mrs. Cousinier again took charge and a short program was given concerning Korea and the Christian work being done there. Mrs. Ganderton, Muriel Durant, Mrs. Hackett and Mrs. Durant each gave short talks about Koreans who had done outstanding work for the Christianization of their country. Rev. Armstrong gave a word of welcome to the Ladies and expressed the hope that the ladies would be able to carry on the good work as they had done previously.

Hi - School Hi - Lights

CHIEF EDITOR—JOHN MOORE

CLASS EDITORS

Grade X — Eleanor Cork
Grade XI — Grace Wittmann
Grade XII — Edith Steel

And here's an answer to my prayer for contributions:

Oh, heck, Johnny. I don't know what to say, I've thought and thought and scratched my head.

All through the long hot day, Once I had a brilliant thought And was feeling very gay, But the principal came strolling down.

And the thought did fly away And now there's nothing left of me But Algebra and clay.

W.H.S.

Why does a flush steal across Eileen's face?

Because if it ran across it would kick up a dust.

W.H.S.

With one week to go the athletics are still going strong. A few more enthusiastic "students" have rushed around the old banner (Eggs, Alvin, I'm getting poetic) again to try for laurels in the Vermilion Track Meet. Ed Walker is doing some running as is Victor Dupuis, of the St. Joseph's Convent. Everyone should be in top shape by Friday.

W.H.S.

On Friday last a mass meeting was held by the students of W.H.S. Mr. Thorson read several rules of the school for the benefit of the freshmen who haven't been there the ropes. He reprimanded several of the pupils who could not help scratching the top of their heads (Von the clouds). It appears that Miss Eileen Foster has photographed about fifteen disks. Mr. Thorson stated that a larger and stronger school spirit should be created among the students.

W.H.S.

Seen on a sweet young thing's arm during French 111 period, the quotation, "J'aime ceux que j'aime" (I love those that love me).

W.H.S.

RAZZLEBERRIES

Quite a pleasant thought was recently seen on a tombstone, it said, "I am what you will be."

W.H.S.

An election will be held on Friday October 6th to elect new officers for our Literary. Any nominations for any of the following officers must be handed to Mr. Thorson with the signature of ten backers: Pres., Vice-Pres., Sec-Treas., Athletic Director, Vex Leader, Editor-in-Chief and Musical Director.

W.H.S.

Maybe we're not good. Mr. Sidney May, of the Calgary Herald has written a letter of congratulations to us about our Hi-Lights.

Vote for Johnny for Editor in Chief and he'll try to please you. Mr. King (in economics class, holding up book) as this book is now, it is of no use to me. How can I obtain some good from it? Lois Mackay: Read it.

W.H.S.

John and Norman, the budding scientists gave Grace quite a shock—110 volts—in their electrical manoeuvres.

W.H.S.

Stanley to Lois M. at a dance—This is a nice floor, Lois—you don't have to dance on my feet all the time.

Young Peoples Society Hold Interesting Meeting

The U. C. Y. P. meeting Sunday night, September 24, was in charge of the Literary Committee, Elizabeth Zook, convenor. The subject dealt with Hymns, Our Literary Heritage. Jessie Bowerman gave a talk on The Literary Value of Hymns, after which Grace Bear read the scripture lesson. The group was very interested in having at guests, two members of the Oxford Group Movement, Mr. Leslie Mathison and Wilson Allo, both of Calgary. They are just young men themselves and each gave a short, vivid talk of

W.H.S.

Eddie made a beautiful "Happy Landing" at the foot of the stairs when he tried a new stunt and made a record record coming down, successful to the last step.

W.H.S.

Supplementary exam results came at last. Some students were still unsuccessful but the second attempts a Lois M. and Gilbert proved fruitful in their Algebra II.

W.H.S.

Here I sit across the aisle watching Jean a little while.

Now and then she sighs and groans.

For she's still in all her bones.

Ten times a day she does repeat I'm surely die for at track meet.

W.H.S.

It usually happens! Ink is all over before you know what happens. Josephine Shaban looked quite blue after her ink bottle became uncontrollable.

W.H.S.

Last night, early morning, brain work and what have you are taking heavy toll among our girl co-eds. Their eyes are old and their hands so unsteady that when they try to take the cork out of an ink bottle they turn the bottle upside down and take the bottle's off the cork. This certainly makes the ink flow in wonderful imitation of Sweet Afton. (At least that's my version of the scene epidemic of ink spilling.)

W.H.S.

Detention Classes are for full swing on the price of admission is one dime and the reward varies from 5¢ to 10¢ to 15¢. If you want any practice in multiplication just drop in and we'll guarantee you'll get it.

W.H.S.

Mr. Thorson was lecturing to the gullus young things in Grade X on echoes. He told them a man in Switzerland used to yell out of his door "Wake up, it's time to get up!" last thing before he went to bed and the echoes used to wake them in the morning and the sweet young things believed him. (Oh Yeah).

W.H.S.

At 10 to 12 here's something a misce and studying History goes like "Henry was a burly sort of foe! Heck there's all ten minutes to go. His eye was true, his hand was steady."

Boy oh boy, I hope dinner ready, because I did it lickety-split.

Wouldn't it be swell if we had chicken.

"He had lots of wives, we're told by Bunyan."

And lots of dressing with lots of onion.

"He had complete control of the Br. Navy.

And cramed potato and thick brown gravy.

"And many a Span'ish Fleet did boot With pickles and pickles and pickles to boot."

But when you get to pie, like a sap I close the history text with a snap I can't be so very long I'll just sit and wait for the drum roll.

W.H.S.

Vote for Johnny in the election.

W.H.S.

Town Council Ho'ds Regular Meeting

Dispose of Considerable Real Estate

The Wainwright Town Council met in regular session on Tuesday evening of last week, September 19, 1933.

The members of Council present at the meeting were Mayor Forsier and Councilors Adams, Welch, McLeod, Billing and Cousinier.

The recorded proceedings of Council at its regular meeting of September 6th, 1933 were adopted and confirmed as written.

Mr. E. Edmondson wrote, asking \$100.00 for Lot 19 in Block 10 Plan 6445 V, which his dwelling is located and, on motion, the Secretary-Treasurer was instructed to inform Mr. Monnava of the state of affairs against the said lot and that he may acquire title by paying these arrears.

The Department of Old Age Pensions wrote that Mrs. C.E. Andrews was making inquiry as to his position of her application for pension.

On motion, it was unanimously resolved that this Council do not approve the application of Mrs. C.E. Andrews for Old Age Pension as, in the opinion of Council, the six months' residence in this municipality, necessary to make this municipality chargeable, has not been established by her within the contemplations of the Regulations governing the Old Age Pensions Act in this province.

Mr. Riley Goodrich made application to purchase Lots 16, 17 and 18 in Block 73 Plan 5721 A. D. at the price of \$200.00 per lot and, on motion, the application was tabled until the next regular meeting.

Mr. Edmund Measler made application to purchase Lots 12 and 13 in Block 69 Plan 5721 A. D. at the price of \$200.00 and, on motion, the application was accepted.

Mr. W. T. Brunker made written application for permission to erect a sign board on the vacant space intervening between the Patterson & Rudd Store and his there on Main Street and, on motion, his application was granted in keeping with the specifications outlined in his application.

The financial statement of the Wainwright Dominion Day Celebration Committee was submitted to Council, showing a surplus of \$26.27 which has been paid into the office of the Dominion Day Treasurer, of the town of Wainwright.

On motion, it was unanimously resolved that Council go on record as highly appreciative of the effort of the Dominion Day Celebration Committee, for the present year, in planning and staging, in the interests of the Town of Wainwright, the thoroughly satisfactory and financially successful demonstration of July 1st, last.

The Committee on Assessment, Property and By-Laws submitted the report, heretofore attached and, on motion, the report was accepted and incorporated in the proceedings of the meeting.

A delegation appeared before Council to the interests of the promotion of hockey in Wainwright during the coming winter and, after some discussion, the Mayor appointed a meeting between the delegation and Council in the Council Chamber on Friday evening at 8 o'clock.

A delegation appeared on behalf of the Curling Club and, after fully discussing the desire of the club to obtain a site for the purpose of erecting a curling rink, on motion, the Mayor and Secretary-Treasurer were authorized to transfer to the club or to trustees for the club satisfactory lots, held by the town in Block 14 Plan 6445 V, to serve the purpose of the club. However, in the application of Father Doyle to purchase Lots 1 to 6 and 18 to 20 all inclusive, in Block 83 Plan 6445 V, presented at this regular meeting of the 6th inst., came before Council under unfinished business and, on

motion, these lots will be sold to met in regular session on Tuesday evening of last week, September 19, 1933.

On motion, it was unanimously resolved that the resolution, passed by this Council at its regular meeting of June 6th, 1933, providing for the levying of taxes for the year 1933, be amended by striking the words, "on or before the 1st day of October 1933 and a discount of 5% be allowed on all similar arrears" and substituting for the words so struck out the words, "on or before the 1st day of November, A.D. 1933."

On motion, Council was regularly adjourned.

Your Committee Assessment, Property and By-Laws has made a strenuous effort, since your last regular meeting to carry out the desire of Council as expressed in your resolution requiring us to interview all former owners of lots, for which title have recently been taken by the Town of Wainwright under instruction of Council, upon which buildings exist by way of improvement. In dealing with such, we have contemplated former owners as including not only former registered owners but also as including purchase and appointed a meeting with all such in the Council Chamber on Wednesday evening of last week, of which meeting ample notice was given in writing to all within reasonable distance, who might attend, by the district Treasurer. Nevertheless, but one former owner attended while two others were represented by agents.

This Committee, therefore, has had but small opportunity of learning the disposition of these former owners but feeling as we do that there is no intention or desire on the part of this Council to deal harshly or arbitrarily with those, who formerly were the owners of such lots, we make the following recommendations in this connection:

1. That, in case the former owner is at the present time in occupation of the property, he be given the opportunity of paying, on or before the last day of November in the present year, the balance of Wainwright taxes for the year 1933, less any discount regularly deductible, and, on payment of this sum, he be granted a monthly tenancy of the property at a monthly rental of an even sum in dollars approximating one-twenty-fourth of the amount of arrears standing on the roll against such rental of \$50.00 payable on the 15th day of November of the present year and thereafter on the 15th of each succeeding month while the said tenancy continues, the Lessee to bear the expense of insuring all buildings thereon in a reasonable amount and any repairs desired by him.

2. That, in case the former owner is not in occupation but has leased the property to a tenant, he be given the same opportunity of paying the payment required from the former owner in occupation to be made on or before the 1st day of November next, on payment of which, the Town of Wainwright will continue the tenancy of the tenant from month to month, provided the monthly rental now being paid by him is paid to the Town of Wainwright on the 15th of each and every month, the former owner to make up any deficiency between this rental and one-twenty-fourth of the amount of arrears standing on the roll against the property and observe the conditions as to insurance, repairs required in the case of former owners in occupation.

(continued on Page 8)

Wedding

On Monday, September 25th, at 11 a.m. in Wainwright, Alta., Mr. Harold Latimer and Miss Elma Lena Reich, both of Wainwright, were married by Rev. W.S. Brunker. E.E. Kidd and Ida Reich, sister of the bride, were witnesses. The bride and groom left on Tuesday for England, where they will spend their honeymoon, visiting the groom's parents. We wish them happiness and success, a safe journey to and from the mother land, back to our community.

Sydenham News

Mrs. M. Rivers and son, Bobby, Mr. and Mrs. F. H. Dodge and daughter, Ruth, of Veteran, were weekend visitors of Mrs. and Mrs. F.W. Watts.

Mr. and Mrs. H. Dowling and Mrs. R. Dayell motored to Edmonton last week.

The sympathies of the district are extended to Mr. Driver and Lorne in their sad loss of a kind and loving wife and mother.

Rev. E. T. Armstrong and Miss Armstrong were calling on Mr. and Mrs. F. Church on Friday.

Master Joe Richardson is enjoying the weekends on the farm, the guest of Mrs. F.W. Watts.

Master Amos Church is making good progress considering that his hip is in a cast. We wish him a rapid and permanent recovery.

You are the Judge

The International Wheat Agreement

In this column last week reference was made to the speech delivered by Premier Bennett on his return to Canada from the World Economic Conference and International Conference of wheat exporting and importing nations. Important facts, figures and general information affecting the world wheat situation were presented, all of which had a bearing upon and led up to the entering into of an agreement by twenty-one nations, namely, interested either as exporters or importers of wheat, designed to advance the common interests of all.

Inasmuch as there is no one question of more vital importance to the people of Canada, and more particularly of Western Canada, than wheat, we propose to supplement last week's article by a further reference to the subject. Statistics compiled covering a long period of years go to establish the fact that when the wheat producers of the world are prosperous—that is, when the price of wheat is high enough to return a fair profit to the farmers raising it—industry generally throughout the world is likewise prosperous. In other words, wheat is shown to be the barometer of prosperity. Naturally so, because it is the standard food of the great bulk of the human race.

First, we recall the terms of the new international wheat agreement: The chief wheat exporting nations, that is Canada, Australia, Argentina and the United States, agree to limit their combined exports of wheat in the crop year August 1, 1933, to July 31, 1934 so that the total world exports of all countries shall not exceed 560,000,000 bushels. Of this amount Canada's export allotment is 200,000,000 bushels.

These four countries further agree that during the following crop year August 1, 1934, to July 31, 1935, they will limit their exports of wheat to a maximum figure of 15 per cent. less than the average yield and average acreage sown during the period 1931-1933 inclusive.

The minor wheat exporting countries, that is Bulgaria, Hungary, Roumania and Yugoslavia agree to limit their combined wheat exports in both the crop years 1933-34 and 1934-35 to 50,000,000 bushels.

While Russia entered into no definite agreement as to restrictions on either production or exports it did agree to enter into further negotiations governing exports.

On the other hand, the importing countries: (1) Agreed not to encourage any increase in the area sown to wheat in their respective countries;

(2) Agreed not to take any governmental measures the effect of which would be to increase the domestic production of wheat.

(3) Agreed to adopt every possible measure to increase the consumption of wheat.

(4) Agreed to the removal of measures which tend to lower the quality of breadstuffs, and thereby decrease the human consumption of wheat.

(5) Agreed to lower their customs tariffs on average wheat when the world price reaches and maintains for a specified period an average fixed price.

Finally, an international Wheat Advisory Committee was set up, representative of both exporting and importing countries, to watch over the working and application of this agreement.

Such is the new international agreement governing future wheat production and export. It is one concrete outcome of the World Economic Conference. Whether it will prove practical in operation and satisfactory in its results time alone will disclose.

It involves the export of less wheat on the part of Canada than was hitherto the case in normal years. Consequently, it involves the raising of less wheat, and the putting of a stop to further increases in wheat acreage and production. For the crop year 1934-35 this reduction is set at 15 per cent. below the average for 1931-33.

Admittedly, the Dominion Government can restrict exports to any figure it may like. That is entirely within its control. But how can that Government limit production? In the United States it is being attempted by paying a bonus to farmers to reduce their wheat acreage, the said bonus to be paid out of a fund created by imposing a special tax on all wheat consumed in the United States. In other words, compensation is being offered the U.S. farmer. It is reported from Ottawa that this idea does not meet with favor nor find much support there.

It is further reported from Ottawa that the Federal Government does not intend to apply any compulsion to bring about a 15 per cent. reduction in wheat acreage, but will rely on educational campaigns among farmers designed to encourage and bring about a voluntary reduction by them. Will the farmers respond to such a campaign? And if certain farmers are willing, and certain farmers are not, will the result be that if one farmer reduces 15 per cent. and another increases 15 per cent. the country will be in exactly the same position. If one set of farmers decline to reduce 15 per cent., even if they do not increase their production, it means that another set of farmers would have to reduce 30 per cent. in order to bring about an average 15 per cent. reduction.

Then, it is to be noted, that the 15 per cent. reduction in 1934-35 is to be from the average yield and acreage sown in 1931-33. In other words, thousands of Western farmers and millions of acres of land produced little or nothing in these years. They must be allowed to produce as largely as possible in 1934-35 in order to make up for the losses of the previous years. If they are to do so, and at the same time the total production is to be reduced by 15 per cent., it seems inevitable that those farmers who had fair crops in 1931-33 must decrease their future production by very much more than 15 per cent.

And what, it will be asked, is to be done with the acreage taken out of wheat production? Can our farmers afford to work it and allow it to lie fallow? They cannot afford to let it run to weeds. Will the wheat not be devoted to other grains with the inevitable result of large surpluses of such grain over and above domestic and export demands?

Without attempting to speculate on the effect which weather conditions will inevitably have on the success or failure of the proposed plan of restriction, and which of course are beyond all human control,—one further question arises: If production is not decreased while at the same time exports from Canada are restricted, and as a consequence surpluses pile up on the farms or huge carry-overs are built up in the elevators, what will the effect of such surpluses have upon the world price? It is admitted that our present large carry-overs have depressed and continue to depress prices. What hope is there of a rise in international prices, and a consequent lowering of tariffs by importing countries, if available wheat supplies are not limited to demand?

Then, too, there is the question as to the effect this new international agreement,—with its provision for reductions of customs duties by importing nations when the price of wheat is high,—will have on the wheat trade of Great Britain and Canada, whereby Britain imposes a duty on foreign-grown wheat while admitting our wheat free. The effect of this is to depress the price of foreign wheat, yet the price of foreign wheat must rise in world markets before the provision of the new international agreement becomes operative under which the importing nations undertake to reduce their customs tariffs against wheat, that of Canada included.

Summer Complaint Plays Havoc With the Bowels

Few people escape an attack of summer complaint. It may be slight or it may be severe, but both the young and the old are liable to it during the summer months. You cannot tell when it seizes you how it is going to end. Let it run for a day or two and see how weak and prostrate it will leave you.

On the first sign of an attack of any looseness of the bowels take a few doses of Dr. Fowler's Extract of Wild Strawberry and see how quickly it will give relief.

Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

Carnivorous Plants

Trap Insects With Lightning-Like Rapidity In Snapping Mouths

New light was cast on mysterious workings of the snapping plants of carnivorous plants. Prof. F. E. Lloyd, president of the Royal Society of Canada, in his presidential address to the botanical section of the British Association for the Advancement of Science, recounted his observations of some 75 species of the bladderwort—a type of plant that snatches its food from air or water.

The professor of botany at McGill University, Montreal, contributed a highly technical paper which he labelled a continuation of his review of carnivorous plants.

The address set out the details of the structure of the "door" which the flesh-eating aquatic or terrestrial plant shuts on such unfortunate small insects as may come wandering within reach. Superfused-motion pictures, Prof. Lloyd related, had disclosed the hungry bladderwort opened the fatal door in 1-160 second and closed it in 1-40 second, completing the whole operation inside 1-16 second. Included in the 75 types in Prof. Lloyd's summary was the purple bladderwort found growing in the vicinity of Montreal.

Old Newspaper Changes Hands

Selkirk Record Was Founded 48 Years Ago

The Selkirk Record, weekly publication founded 48 years ago by the late James Stewart and carried on by his son, Robert, has been sold by his daughter, Mrs. Margaret I. Coleclough, to Charles A. Crozier, who has been a member of the Record staff for the past ten years, and W. H. G. Taylor. The management of the paper has been in the hands of Mr. Coleclough for six years, owing to her father's illness, part of the time, and his active engagement with another newspaper enterprise in the eastern part of the province. The new owners announce a policy of independence in politics.

Should Have Foreseen Stamp

Expert Thinks Managers Of Banks Were "Extremely Blind"

Managers of central banks throughout the world were "extremely blind," in not foreseeing the approaching depression, some years ago, says a royal commission on banking was told at Toronto. It did not follow that it was impossible to secure a Canadian of sufficient ability and vision to head such an institution in Canada.

This viewpoint was expressed by A. J. Greenbank, an expert lecturer in banking at the University of Toronto. In answer to questions by Sir Thomas White, a member of the commission.

Saskatchewan Lumber Cut

Report For Last Year Gives Amount As 28,815,140 Feet

Although the amount of lumber cut in Saskatchewan during 1932 was considerably less than for the previous year, the majority of mills managed to operate at least part time, according to a report of the department of railways, labor and industry. The total number of saw mills in operation in 1932 numbered 103. Thirty-four mills including some of the larger mills did not operate. The total amount of lumber cut by the operating mills was 28,815,140 feet board measure.

Willing To Help

For months he has been her devoted admirer. Now, at long last, he had screwed up sufficient courage to ask her the most momentous of all questions.

"There are quite a lot of advantages in being a bachelor," he began, "but there comes a time when one longs for the companionship of another being—a being who will regard one as perfect: whom one can treat as one's absolute property, who will be kind and faithful when times are hard; who will share one's joys and sorrows."

To his delight he saw a sympathetic light in her eyes. Then she nodded in agreement.

"So you're thinking of buying a dog?" she said. "I think it's a fine idea. Do let me help you choose one!"

Where Photographs Are Barred

Photographs have been barred from Yemen, in Southeast Arabia. The Imam has ruled that anyone having one of the sound producers will be dealt with severely. He also has issued another law imposing a tax on every man who shaves his beard.

Saskatchewan is the world's greatest wheat growing province.

3 MONTHS ON BISCUITS AND MILK

Woman's Digestive Troubles

Everyone who is subject to any form of indigestion should know of this woman's experiences. Advice from a doctor has been to eat several attacks is advice worth having. She writes:—

"I suffered from indigestion, gas, flatulence and constipation, and was very ill. I had (on medical advice) to live on soda biscuits and milk for three months. Well, a friend advised me to take Kruschen, and now I am pleased to say my troubles are ended. I can eat and enjoy a good meal without any painful after-effects, my skin is clearer—in fact, quite clear—and there is no sign of constipation. I would advise anyone suffering the same to take Kruschen."—(Mrs.) M.R.L.

The immediate effect of the six salts in Kruschen is to promote a natural flow of the digestive and other vital juices of the body. Soon after you start on Kruschen you will find that you are able to enjoy your food without any distressing after-effects. And as you persevere with the "little daily dose" you will see that the relief which Kruschen brings is lasting relief.

Decorative Radiator Caps

Detroit Jury Advises Abolition Of Dangerous Car Adornments

Nude figures, Greek goddesses and other figures whose distorted forms adorn the radiator caps of automobiles may soon disappear in Michigan if the recommendation of a coroner's jury is acted upon by the Legislature.

The jury returned a verdict of not guilty in the case of a driver whose radiator adornment perched the chest of a 72-year-old man who suffered a punctured lung and died soon after the accident.

The recommendation was made by Coroner Albert A. Hughes when the verdict was announced. It asked that the Legislature pass an act prohibiting the use of radiator embellishments which extend beyond the front of the radiator.

Dr. Hughes said that a number of recent fatalities have resulted because of these decorative radiator caps.

Supplies For Northern Post

Steamer Delayed By Storms Reached Craig Harbor Safely

A sudden lull of the northeast gales that howl over the ice pack surrounding the north pole enabled the Hudson's Bay Company steamer "Nascope" to drop supplies at Craig Harbor, Canada's far-northern post, on Ottawa by the department of the interior said last night and driven toward the harbor by the harbor pilot 600 miles from the pole for five days until the storms abated sufficiently on Sept. 7 to permit unloading.

The steamer, carrying supplies to Royal Canadian Mounted Police posts in the Arctic, was at the northern apex of its patrol at Craig Harbor.

Residents Should Know

Lady Outerbridge Tells How Newfoundland Is Pronounced

On a Canadian Steamship line "Lady Somers," coming up the St. Lawrence recently, newspapermen learned from good authority how to pronounce "Newfoundland." Granted that people who live there have a right to determine pronunciation, and that Lady Outerbridge, wife of Sir Joseph Outerbridge, after 40 years residence in Newfoundland, is an authority, the way to pronounce it is "New-fun-land," with all the stress on the "land."

For Hot Weather Use

London's commissioner of police is making tests of aluminum hats for policemen. A number of men on duty have been wearing helmets lined with aluminum foil, which is said to make headgear extremely cool. If the tests are satisfactory, aluminum hats will be ordered for hot-weather use.

While a couple in America were playing golf a cyclone destroyed their house. But, after all, what do golfers want with a house?

PILE SUFFERERS

HAPPY RELIEF

MECCA PILE REMEDIES

Order by number (No. 1 for hemorrhoids, No. 2 for piles, No. 3 for itching, No. 4 for all) 25c per box (including postage) 50c per box (including postage) 1.00 per box (including postage)

Up-Side-Down Flying

Italian Ace Describes Feeding In Three-Hour Trip

Biting in a Chicago hotel, breakfasting on a mushroom and coffee, Lieut. Tito Falconi told of his experiences in making a new world's record for up-side-down flight. His latest wrong-side-up flight was from St. Louis to Joliet, Ill., a trip that took three hours and seven minutes because of the slow speed rate that this type of flying requires.

"It's a swell feeling when you turn upright again," said Falconi. "It's like getting well after you've been sick."

Asked if a sensation of dizziness overtook him, the swartzy little Italian ace replied, "Ah, no. The only sensation is one of pain because of the constant weight on one's shoulders. In this method of flying the pilot is held in the ship by straps which fasten around the shoulder, and the sensation felt is the same one gets from carrying any, a 150-pound weight in a basket hanging from the shoulders."

The most thrilling experience in Falconi's career, he said, was had on this trip when his right safety strap gave way about an hour out. He was dropped half way out of the cockpit, his goggles were torn off by the terrific wind, and he was unable to see. An added thrill was the fact that he did not wear his parachute, its weight being too great a handicap in the suspended position.

Egypt Buys British Planes

Said To Be Used In Flight Against Drug Traffic

A firm in Manchester has received an order from the Egyptian government for ten aeroplanes of the Avro 626 type. The type is a development of the "Tutor" type, an order for 300 of which was placed with the firm a year ago by the British air ministry, on the fulfillment of which the Newton Heath works are still engaged.

The type is one on which pilots can be trained in every branch of military flying, including blind flying and bombing.

It is reported that the machines are to be used in the Egyptian government's fight against the drug traffic. The machines are admirably adapted for long-distances patrol work, and have machine-gun, wireless and photographic equipment, and each carries a pilot and a navigator.

Gas In The Stomach

Gas in the stomach, belching, sour water brash, pain after eating, etc. can be overcome within three minutes if you will take a little Bismarck Magnesia in water after you eat. The ordinary Bismarck Magnesia which you can get at any drug store will correct acid stomach and stop acid indigestion immediately. Try it and see.

Ready For Distribution

Saskatchewan Salt From Simpson Well Placed On Market

The first shipment of Saskatchewan salt taken from the Simpson salt well is ready for distribution. More than seven years ago a company drilled for oil and about two years ago secured a salt brine deposit. The brine is being vaporized in salt by the Simpson Oil Company.

A well is being drilled about one and a quarter miles east of the salt well, where it is hoped to tap gas, to be used at the salt well for vaporization. With the profits from the salt the company will continue its search for oil in a field that geologists have said has good possibilities for the discovery of oil.

Tea Restriction

Protection Afforded Tea Grower Results In Higher Prices

In April a restriction was placed on tea exports from Ceylon, India, and Java, in order to raise prices to growers, who, for almost four years, had been suffering devastating losses. Higher prices have resulted, not only to the growers, but also here on our own markets, and many package teas already cost more than they did six months ago. Some of the finer quality brands are as yet unchanged, however, and are, consequently, even better value than at last April.

Many Life-Guards

On the 4½-mile beach which limits the seaside resort to Portsmouth 900 volunteer life-saving guards have just gone on duty. Southeast is the first town to respond to a campaign for safety bathing, following scores of drownings this season.

Kentucky has a postoffice in the town of "Ice."

All's Well That

Smokes Well

All's well with the pipe, all's well with the smoker when Ogden's Cut Plug is lit and drawing well.

Ogden's Cut Plug is a downright fine tobacco . . . cool, mellow and satisfying . . . made for the pipe, made to pack right, to light right and to smoke right. See what a difference it will make in your pipe!

Ogden's Cut Plug is a downright fine tobacco . . . cool, mellow and satisfying . . . made for the pipe, made to pack right, to light right and to smoke right. See what a difference it will make in your pipe!

If you "roll your own," use Ogden's fine cut cigarette tobacco and Chanticleer cigarette papers

Foresees Highway From Argentine To Alaska

California Man Confident Road Will Be Built

Motorists of the future may be able to drive from Buenos Aires, capital of the Argentine Republic, to Fairbanks, Alaska, on the International Pacific Highway, according to Ernest McGaffey, manager of the magazine bureau of the Automobile Club of Southern California.

Mr. McGaffey is confident that the much talked-of British Columbia-Alaska Highway will be built, and that it will be a component part of the international road by means of which it is proposed to link North and South America.

Within the next five years, Mr. McGaffey said, part of this international highway would be completed between Nogales, on the border of Arizona, and Sonora, and Mexico City.

Taking Second Place

The time-honored onion has finally lost its grip on Bermuda. Agricultural statistics for 1933 show that for the first time the Bermuda onion is playing second fiddle to other vegetables in number of crates shipped from the island, tomatoes leading by a score of 30,881 to 20,861. Carrots also passed onions this year with a grand score of 24,890 crates.

Marconi says he can eliminate static from radio. With some programs it wouldn't make much difference.

HAMILTON, ONTARIO

BANKS SUBMIT CASE BEFORE THE COMMISSION

Ottawa, Ont.—Canadian chartered banks laid their case before the Royal Commission on Banking. As a climax to weeks of intense inquiry, five general managers of Canadian banking institutions presented a score of briefs dealing with matters of vital importance to the financial life of the Dominion.

In a single day they dealt with 50 points which have been raised and emphasized before the commission from coast to coast. Swiftly they placed upon record their views on controversial matters.

First and foremost, the chartered banks came out definitely against creation of a central bank "in the present extremely disturbed state of business."

They stressed the danger of political influence. That danger would be present in ordinary times. But it was far more pressing now "when years of unprecedented depression have brought dangerous currency theories into party politics and when it is quite within the bounds of possibility that some political party might gain office pledged to carry such theories into practice."

However strong might be the case for a central bank, "it would undoubtedly be better for this country to have none than to have a central bank subject in any way to political pressure," was the positive assertion.

Marshalling arguments for and against the proposed central institution, in a 40-page document, the chartered banks supplied an alternative proposal. They suggested the appointment of an administration board "composed of experts in finance and currency and broadly representative of the business and agricultural interests of Canada" to administer the functions now performed by the treasury board.

"We believe that the administrative board would be helpful, that it would be a careful approach to the further development of this country's financial machinery, that it would be inexpensive to operate, that it would not interfere with the ability of the chartered banks to serve the public adequately, and that, in due time, as it demonstrated its competence and efficiency, it might become an institution to which perhaps greater responsibilities might be entrusted," the banks submitted.

Conference Was Success

Treasury Officials Report Marked Progress At Three-Day Meeting
Ottawa, Ont.—Marked progress towards a common plan for presentation of public finance was reported at the close of the three-day conference of Dominion and provincial treasury officials.

An official statement issued at the conclusion of the meeting declared:

"The purpose of the conference, it was emphasized, was not to produce changes in the form in which the public accounts of the provinces and other bodies are being published by each, which must follow individual requirements, but rather to achieve a scheme of reporting to the Bureau of Statistics as central clearing house whereby broad comparisons may be arrived at and a constant purview obtained for the country as a whole."

"The discussions were of a practical and constructive nature throughout, and as a result the bureau will submit to the provinces at an early date a standard form of reporting which, it is expected, will achieve the objectives aimed at."

Ontario School Does

Away With Homework

Oakville Collegiate Will Add Extra Hour To School Day

Oakville, Ont.—The virtual end of home work and detentions for high school students, with more work done in less actual studying time, will mark a new educational plan to be introduced into Oakville High School by Principal R. H. Archibald.

An hour will be added to the school day, but practically no home work will be called for from lower and middle classes, while upper school home work will be cut in half.

Northern Air Record

Edmonton, Alberta.—John Bythell, Canadian Airways pilot flew from the rich mining fields of Great Bear Lake in the far north to Edmonton in seven hours and 45 minutes, a new record for the 1,000 mile run. The previous record was eight hours, 35 minutes, made last spring by Bythell.

W. N. U. 2012

Caring For Livestock

Alberta Announces Policy For Dried Out Areas In Province

Edmonton, Alta.—Announcement of the policy under which the feed shortage situation in the dried-out areas of the province will be cared for was made by Hon. George Headley, Minister of Agriculture.

The policy covers not only the shipment of feed for necessary farm stock into the areas concerned, but also the shipment of commercial cattle and sheep, and of farm work horses out of the areas to winter feeding quarters. Shipment of commercial cattle and sheep to winter feeding quarters will be undertaken on application from bona fide owners of such livestock, who shall certify that the stock are for winter feeding and that the ownership will be retained until such time as permission for sale is granted by the Department of Agriculture.

There will be no cost to the shipper for freight, the railways having granted 50 per cent. of the cost and the federal and provincial governments bearing equally between them the other 50 per cent.

Moved From Office

Senator Murdoch No Longer Vice-President Of Railway Trustees

Cleveland, Ohio.—Senator James Murdoch was removed from the office of Canadian vice-president of the Brotherhood of Railway Trainmen by the executive board of the organization.

The removal, to take effect Sept. 15, came after President A. F. Whitney, of the brotherhood, had made the charges against Murdoch for failure to perform his duties properly. Six of these charges were sustained by the executive board, among them the allegation that Senator Murdoch "failed in his duties as an officer in handling the now pending wage dispute in the Dominion."

Whitney in a statement said: "Murdoch's whole attitude in the wage situation in Canada was found by the board to be lukewarm. The wages there now are 17 1/2 per cent. lower than they are in the United States."

Government To Contribute

Pay 75 Per Cent. Of Freight Charges On Exhibits To Winter Fair

Ottawa, Ont.—The Dominion policy of paying 75 per cent. of the freight charges on exhibits of livestock from all provinces, with the exception of Ontario, to the Royal Winter Fair opening in Toronto on November 22, is being continued for this year. Announcement to this effect was made by the Department of Agriculture.

The policy is applicable only in connection with transportation from assembling points to Toronto and also to assembling points on the return journey. Any charges incurred before the exhibits are assembled, and after they each the assembling points on the return journey, will not be considered as a charge against the Dominion government.

The 75 per cent. contribution by the Dominion is to be paid on condition that the province, in this case, pays the remaining 25 per cent.

Expect Large Wheat Yield

District In Southeastern Alberta Places Figure At 2,525,000 Bushels

Calgary, Alberta.—In the district between Stirling and Manyberries, in southeastern Alberta, farmers expect a larger yield of wheat than last year, placing the figures at 2,525,000 bushels. This area is the bright spot of drought-stricken southern Alberta.

With prices about 50 per cent. above last year, the farmers of the Stirling and Manyberries district expect to emerge to some extent from debts which submerged them during lean years. They are in a better position than farmers in districts which usually produce good crops.

The average yield is expected to be 18 bushels per acre, with Etiskow district reporting a 50-bushel yield on one farm.

Fourth Tour Of Canada

Englishman Claims To Be Champion Cyclist Of World

Calgary, Alberta.—R. W. Crawford, policeman, soldier and sailor in his hectic career, who hails from Sunderland, England, claims to be the world's champion cyclist with 150,000 miles to his credit.

Crawford, lounging on his bicycle since 1919, has visited almost all countries in the world. He is now touring Canada for the fourth time and rested here a few days before starting westward.

Choice Cattle For

Churchill Shipment

Twenty Carloads To Go From Saskatchewan And Alberta

Calgary, Alberta.—Several carloads of cattle from Calgary and other Alberta districts, will be included in the shipment to leave Churchill, Manitoba's northern seaport, for the United Kingdom, September 27, aboard S.S. Brandon.

Jack Byers, manager of the Western Stock Growers' Association, is handling the shipment of 200 head of prairie cattle and plans collecting a number from this area.

It was pointed out by Alberta cattlemen they had urged a trial shipment of beef cattle to be sent through Churchill earlier in the season, the proposal supported by various organizations, but difficulties were met. Close co-operation, however, between provincial and Dominion ministers resulted the obstacles, making the September 27 shipment possible.

Costs of shipping via Churchill will be comparable with those of the Montreal route, it was added. Twenty carloads are expected to be taken from Saskatchewan and Alberta with choice steers, weighing 1,100 to 1,200 pounds receiving preference so the consignment will be well received in the Old Country.

MOTOR OWNERS PAY HUGE TAX TO OPERATE CARS

Ottawa, Ont.—Motor vehicles operated in Canada now their owners into a tax bill of \$54,700,000 last year, according to an estimate released by the Dominion Bureau of Statistics. That meant over \$50 for every registered motor vehicle—to say nothing of the fines.

The provinces collected \$21,126,771 for registration fees on vehicles and operators, and another \$27,083,316 in gasoline taxes. The Dominion took in \$4,508,471 on import duties and excise taxes. In addition there was the sales tax on cars sold, estimated at \$2,500,000, and the import duty on gasoline, estimated at \$1,500,000.

Motor vehicle registrations in Canada for 1932 amounted to 1,114,503, including 945,994 passenger automobiles, 1,530 motor buses, 107,099 trucks and other commercial vehicles and 9,419 motorcycles.

This was a decrease from the 1931 registrations of 86,404 motor vehicles, or 7.2 per cent. The greatest decrease was in New Brunswick, where total registrations decreased by 16.6 per cent. and passenger cars by 17.8 per cent., and Saskatchewan followed with a decrease of 15.5 per cent. in total registrations.

Canada, with one motor vehicle to every 9.4 persons, ranked fourth in density, the United States leading with a density of one motor vehicle to every 5.1 persons and Hawaii and New Zealand ranking second and third. Ontario, with 6.5 persons per motor vehicle, had the greatest density in Canada. British Columbia was second with 7.7 persons per motor vehicle.

RAMSAY MACDONALD ENJOYS LEISURE

After the strenuous Economic Conference sessions in London, Ramsay MacDonald went North to his native haire to enjoy a well earned rest. Here we see him (centre) at the Scottish dog trials held at Keith, Banffshire. He is watching one of the competitors in action panning sheep while other rivals crouch at the British Premier's feet waiting their turn to perform.

COL. R. S. McLAUGHLIN

Prominent Canadian automobile industry leader who, in a recent speech warned the government of the peril in over-taxing automobiles. Col. McLaughlin stated there was "danger of killing the goose that lays the golden eggs."

Favor Rejection Of Cut

Great Number Of Railwaymen Vote Against Pay Reduction

Montreal, Que.—"Trainmen, conductors, telegraphers, engineers and firemen in Montreal and vicinity now voting on the general strike referendum being conducted by the railroad running trades, have filed an overwhelming number of ballots in favor of a strike as an alternative to taking another pay cut," The Montreal Star says.

"It was discovered that with the exception of the telegraphers the brotherhoods were casting their votes almost unanimously in favor of rejecting the cut. The telegraphers, it was found, are voting in the proportion of 65-35 for a strike, if negotiations with the companies cannot be successfully completed," the paper continues.

Plight Of The Farmer

Has Borne The Brunt Of Hard Times On The Prairies

Calgary, Alberta.—"Unless more consideration is given the farm population of the prairie provinces by the national economic policy a situation may arise which will have exceedingly serious consequences," according to L. D. Nesbitt, publicity director of Alberta Wheat Pool, in an address here. "No nation," he added, "has been more seriously injured by declining prices of agricultural products than has Canada and the prairie provinces have borne the brunt of it." He denied the trouble was due to lack of efficiency or skill on the part of the farmers.

Elects First Woman Member

Wellington, New Zealand.—The first woman member to be returned to the New Zealand parliament was elected in Lyttelton. She is Mrs. Elizabeth R. McComb. She succeeds to the seat made vacant by the death of her husband. Mrs. McComb ran as a Labor candidate and received 6,080 votes. F. W. Freeman, Coalition nominee, obtained 3,480 votes, and A. Hills, Independent Labor 263.

Wins Fortune

Montreal Man Wins Large Sum In Sweepstakes Ticket

Montreal, Que.—Adrian Vanier, 50-year-old shoe store manager reported to have won \$54,000 on a sweepstakes ticket in the St. Leger classic, stepped into court to draw out a summons against his wife on a charge of participating in a lottery. Mrs. Vanier is scheduled to appear in court this week.

Vanier took action against his wife under section 230 of the criminal code, which provides that money obtained through illegal sweepstakes "is liable to be forfeited to any person who sues for the same by action or information in any court of competent jurisdiction."

The winning ticket was held in Vanier's name but, it is presumed, on the basis of his action, that it has been transferred to his wife. As informant he will be entitled to retain possession of the ticket.

Two Canadians and one American reaped small fortunes as a result of the running of the St. Leger stakes at Doncaster, England.

Besides Adrian Vanier, 54, of Montreal, a ticket of Felicitation, the second horse, is held by A. Labelle, of Quebec City, who receives \$36,000. William A. Haase, Calumet City, Ill., held a ticket on Scarlet Tiger, in third position. Haase wins \$18,000.

British Naval Officers

Make Hazardous Voyage

Sailed Across Pacific In Fifty-Four Foot Ketch

Victoria, B.C.—An adventurous 6,000-mile sailing voyage from Hong Kong ended Sept. 12, when the 54-foot ketch "Tai-Mo-Shan" dropped anchor in Victoria Harbor. Five British naval officers, en route to England, were aboard.

The craft, which has no auxiliary power, sailed all the way across the Pacific. The trip was made via Yokohama, Attu, in the Aleutian Islands, and Dutch Harbor, Alaska. The party is sailing to the United Kingdom for the summer.

The ship was hoisted to 20 hours when a typhoon passed nearby in eastern waters. But no damage was suffered.

INITIAL POOL PAYMENT 45c. IN SASKATCHEWAN

Winnipeg, Man.—Substantial increases in initial payments on pooled wheat this year were in store for farmers of western Canada today. The Saskatchewan wheat pool has announced an initial payment for 1933-34 pooled wheat of 45 cents a bushel, basis No. 1 Northern, Fort William.

This is an increase of 10 cents per bushel above the payment made last year. Alberta and Manitoba pools will meet in a few days, when a final decision respecting their initial payments will be made.

In view of the lateness of the announcement wheat growers in Saskatchewan who delivered grain to country elevators after July 15 will benefit from the increased payment. They have already received an advance of 35 cents, equivalent to last year's initial payment. Alberta and Manitoba wheat pools have been accepting this season's wheat on the basis of a 35-cent initial payment.

Saskatchewan wheat pool's initial payment for 1933-34 pool deliveries will be 45 cents, basis No. 1 Northern, Fort William. This represents an increase of 10 cents over the initial payment made last year.

A press statement from pool headquarters reads:

"The policy of the organization as established last year requires the grower to declare his intention of pooling at the time he delivers his first load. The same policy is in effect for the present crop year. In view of the lateness of the announcement of the initial payment, however, the growers having grain in store at country elevators which was delivered after July 15 will have the opportunity of delivering their wheat to be marketed through the 1933-34 pool, provided they do so within three days after this announcement is received at their country elevator."

"Already a substantial quantity of grain has been delivered for marketing through the pool, on an advance of 35 cents (One Northern basis) has been made. This advance is equivalent to last year's initial payment. Adjustments in order to bring this payment up to 45 cents will be mailed immediately to pool elevator agents for distribution."

"The first five grades are deliverable to the 1933-34 pool, from One Hard to 4 inclusive."

MOLLISONS WILL TRY ANOTHER DISTANCE FLIGHT

Montreal, Que.—A young man who has scanned the widening horizons from Croydon to the Cape and all along the world's skyways came into Montreal on the way to the start of his spectacular adventure. And in the manner of pioneers, the exploit will be shared by his wife.

By the end of this month, barring the unforeseen, Jim and Amy Mollison, side by side in their "Seafarer II," will be driving eastward from Canada to beat the non-stop distance record of the air.

Quiet, calm, and the idol of the ship, Jim arrived on the "Empress of Britain" at Quebec, halted for a bit in Montreal, and planned to join Amy in Toronto. Together they will complete preparations for the attempt to beat the distance of the French flyers, Codos and Rosier.

The packed sands of Wasaga Beach, near Collingwood, Ont., will in all probability be the take-off spot. A definite decision was still to be made, and Jim says it's up to Amy, who knows the ground.

"We'll get away just as soon as possible after the equinoctial gales are over," the 28-year-old flyer said. "How far are we going? As far as we can."

It is probable this will be the last spectacular flight of this nature undertaken by the Mollisons. Jim said as much. "I've made six tough trips, including three across the Atlantic. That should be almost enough. And Amy has had more than her share of danger. I don't think we'll try anything on this scale again."

Canada Has Butter Surplus

Ten Million Pounds More Than Needed For Domestic Use

Ottawa.—Canada suddenly finds itself with 10,000,000 pounds more butter than will be needed for domestic consumption this winter. W. H. Forster, of Hamilton, president of the National Dairy Council, and Allan C. Fraser, manager and secretary, with other members of the council, had conferences with Hon. H. H. Stevens, Minister of Trade and Commerce, and Hon. Robert W. Stewart, Minister of Agriculture, to see what can be done about it.

The impression seems to be that Canada made too much butter and not enough cheese. Canadian cheese commands a premium on the British market and the butter has to take a discount as compared with the New Zealand product.

Storage figures on September 11 showed 41,490,441 pounds of butter on hand whereas last year the total on the corresponding date was 30,605,169.

Western Canada holders of butter are reported to be prepared to take a loss and ship the surplus butter to the United Kingdom, rather than glaze the domestic market. There is a move on foot to do the same with Ontario butter. The conversations Tuesday were to devise the best means of going about the task and no definite decision was reached.

Rule Made Clearer

Railway Board Explains Cause Regarding Demurrage On Grain

Ottawa, Ont.—The Dominion Board of Railway Commissioners issued its interpretation of one clause in the Canadian car demurrage rules relating to grain shipments to western Canada. Under the rules shipments may be inspected at West Toronto, Ont., and Outremont, Que. In eastern Canada, but it is stipulated "demurrage shall not be collected from the consignee for any delays for which the government or railway officials may be responsible."

Made Cheap Trip

Calgary, Alta.—Two McGill University students returned to their homes in Calgary after a tour of the Old Country in an auto for which they paid \$70. The students, R. A. Brown, Jr. and John Mackenzie, journeyed to the Old Country on a cattle train, bent on seeing England and Scotland, bought the car and journeyed 3,500 miles, declaring they spent only \$4 on repairs for the ancient machine, which they sold for \$25.

Canadian Poultry Free

Ottawa, Ont.—The tariff which the United Kingdom imposed on dead fowl, ducks and geese from foreign countries after September 15 will be three pence a pound instead of 10 per cent. ad valorem. The Canadian product will continue to go into U.K. markets free.

THE WAINWRIGHT RECORD

Published Every Wednesday

REV. W. H. ZOOK, Editor and Publisher.

WAINWRIGHT — — — — — ALBERTA

MEMBER THE CANADIAN WEEKLY NEWSPAPER ASSOCIATION

Let anyone that is well known get sick and suffer from an ailment for which he is receiving and trying various treatments, and he will find more suggestions for would-be cures than he could possibly experiment on if he were to live to the age of Methuselah. In other words, everyone has a remedy for the sick body. So with the sick body economic, there are thousands and one quacks running up and down the country telling what they would do if the public would only put them in the position of surgeon and physician.

They would dissect the body economic, they would destroy the banks by removing the appendix. They would chase to the tall timbers the terrible capitalists by removing the gastric juices so necessary for the development of digestion. They would amputate the feet of the body economic by tearing aside private ownership, the basis of home security in our land, and if their knives were not too dull by this time they would cut away the ears, for what good are ears to those who will not learn, and lastly they would preserve in oil the brain, for good communists must declare war on the hated educationists. In a word our new saviours of Canada would restore prosperity, making this a virtual Heaven on earth.

They forget that we can perhaps temporarily remedy world conditions by local improvements. But Canada does not depend on Canada alone. It is a world proposition that confronts modern civilization, the effects of a great war and its huge profiteers.

Thus it must be borne in mind that the depression in Canada is a world-wide affair, far worse in the country to the South of us; in fact, conditions in New York are fifty times worse than at any point in Canada.

And the economic body which is ill is just like the human body. Time must take its course. No medicine or restorative can work overnight. Nature works slowly, and it has been said that we never stand still but are either getting better or worse. As far as the economic situation is concerned, the worst pessimist must admit that we are on the upward trend, and since the whole situation to a large extent is mental, due to the lack of confidence in the minds of the masses, it is easily conceivable that the creation of a healthy mental outlook based on an optimistic viewpoint is the true solution.

One member of the C.C.F. tells the editor of this paper that if he gets his way, Canada will be for the Canadians, and break with the mother land. Farmers of Western Canada should tarry at this proposition, for if we were to shut off our market for wheat in the Motherland we might as well pack our grips and leave these Western plains. So for self-preservation let no farmer in Western Canada ever suggest any such proposition. If he doubts the force of this language let him bear in mind what happened when England refused to take dictation from the wheat pool moguls.

Parties spring up over night, especially in difficult times, and it may be that the C.C.F. is the result of present day conditions. If, however, they are sincere and sacrificing for the common weal, we wish them every success and shall watch their progress with interest.

The definition of democracy is known by most people as the rule of the common people. Webster defines it as government by the people, in which the supreme power is retained by the people, although exercised directly and indirectly through a system of representation.

This struggle of the classes, and after all democratic government is a result of that struggle, dates back to the time immemorial. Mankind has been born with different attributes. Some have excelled in strength of body, others have surpassed in mental powers, therefore it is readily understood how and why there could be an opinion among many people that there is a difference in position. The greatest example of democratic country from a literal interpretation, is the United States.

But is democracy all that it is claimed to be? Is there a lot of a King and a dictator in the form of money where there is one law for the rich and one for the poor? How many people in the United States have been punished for murder? How much justice exists in that country which openly flaunts its democracy.

The record of the Department includes lockouts as well as strikes but a lockout, or an industrial condition which is undoubtedly a lockout, is rarely encountered. In the statistical table, therefore, strikes and lockouts are recorded together. A strike or lockout, included as such in the record of the Department, is a cessation of work involving six or more employees and lasting at least one working day. Disputes of less than one day's duration and disputes involving less than six employees, are not included in the published record unless ten days or more time loss is caused, but a separate record of such disputes is maintained in the Department, and the figures

are given in the annual review. Each month, however, any such disputes reported are mentioned in this article as "minor disputes."

The records include all strikes and lockouts which come to the knowledge of the Department, and the methods taken to secure information preclude the probability of omissions of disputes of importance. Information as to a dispute involving a small number of employees, or for a short period of time, is frequently not received until some time after its commencement.

The number of strikes and lockouts recorded for July was substantially smaller than that shown for June 1934, the number of workers involved and the time loss incurred showing a similar decline from the previous month when a strike of some 1,800 pulpwood cutters in northern Ontario caused a time loss of 18,000 working days and a dispute involving 600 knitting factory workers in Hamilton, Ontario, resulted in a time loss of 6,500 working days. As compared with July, 1933, less than one-third the number of strikes were recorded, with a corresponding decrease in the number of workers involved and the time loss incurred, due chiefly to the occurrence in July last year of strikes in Nova Scotia and Alberta involving 1,000 coal miners in a time loss of 20,000 working days, in addition to disputes of salmon fishermen in British Columbia in which upwards of 3,000 workers were involved for a time loss of 18,000 working days.

Two disputes, involving 612 workers, were carried over from June, and six disputes commenced during July. Of these eight disputes, five were terminated during the month, three being in favor of the employer involved, one in favor of the workers concerned and a compromise settlement was reached in one case. At the end of July, therefore, there were three disputes in progress recorded as strikes or lockouts, namely: coal miners, Cammore, Alberta, women's clothing factory workers, Toronto, Ontario, and plumbers, Hamilton, Ontario.

Disputes involving men on employment relief work, who are not paid wages but receive subsistence for which some work is performed or may be required, are not included in the record, as no relation of employer and employee is involved.

A minor dispute has been reported which resulted in a cessation of work on July 31, 1933, in the establishment of a produce company at Winnipeg, Manitoba, by eight employees for four hours. A change from piece rates to hourly rates of pay for women killing and plucking chickens was demanded, 32½ cents per hour being agreed upon.

A strike of ornamental iron and bronze workers on July 26, 1933, was reported to the Department too late for inclusion in the table and statistical compilation. Between 100 and 180 workers in from 15 to 20 establishments ceased work demanding a minimum wage of 65 cents per hour for mechanics. Negotiations failing to result in a settlement, the dispute was untempered at the end of the month.

Knitting Factory Workers, Hamilton, Ontario.—This strike, beginning on July 19, 1933, terminated on July 12, when the strikers resumed work on the employer's terms. As stated in the July issue of the Labour Gazette, a cessation of work by employees in one department against the introduction of a new system of work and wage payment by results had spread to other departments where the system had already been in force for some months. No settlement being reached, operations had been resumed in some departments early in July, some of the strikers returning and others being replaced, while the work of certain departments was carried on in another plant of the employer at Woodstock, Ontario. Negotiations between the management and the strike committee on July 11 resulted in an arrangement for the return of the remaining strikers on the following day. It is reported that a slight improvement in the piece rates had been made and there was to be no discrimination against the strikers.

Wainwright Record

JOB DEPARTMENT

Phone 65

Pin-Head says, "he has been about a good bit." He evidently has been here in Wainwright several times. Just what his business has been, no one seems to know. He does not say much, but when talking to him he seemed to know a great deal about many of the people here and especially the old timers. Of course one should make allowances for what he says, as some of the stories he has related to me, indicate that he dreams a great deal and then comes to the conclusion that it is the truth. For instance he related this story to me last winter while here. He said "he was driving through the buffalo park, riding in the rumble seat, and there were three other people in the car. They came to a place in the road where there was a large buffalo bull standing close to the road. He climbed out of the rumble seat with a camera to take a picture of the buffalo. When about ready to snap the picture, he heard a snort and looking up saw the buffalo with his head lowered and ready to charge him. He dropped the camera and ran for the car with all his might, but he was going with such speed when he reached the car that he was unable to stop and in order to slow his speed a bit he jumped entirely over the car. He was still unable to stop so he jumped back over the car again and landed right in front of the charging buffalo. The animal, with lowered head, was almost upon him. The only thing he could do was to jump over the buffalo and started to run away from the buffalo but also away from the car. He said he made a circle toward the main entrance as he was certain he heard the bull right on his heels. He said the gate was closed and David did not seem to be around so he jumped over the main gate and just after he landed on the other side he heard an awful tang and smash and on looking back, he saw the Ford in which he had been riding, horribly smashed from the sudden impact with the gate, but he did not see the buffalo anywhere. Upon investigation he found out it was the horn on the car that made a noise like a buffalo and the people had been doing there best to catch him but were unable to do so." I asked him if he was any relation to Major Hoople and he said "no but that he knew Bill Washburn."

I asked him what became of the camera and he said "there was a tree growing out in the park now that had green l'osomes and bore three crops of cameras every time it thundered."

What about the Ford? "Oh, I gave birth to a Franklin and 16 Austins when it smashed." What happened to the Franklin? "It got cold feet and shivered into a Chivvie." What became of the Austins? "They are being used in the roller skate rink." But Wainwright has no roller skating rink. "Oh yes but they should have"

ITEMS OF INTEREST

Experiments have shown that the best time to feed chicks for the first time is when they are between 36 to 48 hours old. Results showed that there was a decided disadvantage in withholding feed for 72 hours.

Although many other factors must be taken into account, the view is held that in Australia that major control of weather is exerted by the sun.

The three factors essential for successful wintering of bees should be borne in mind by beekeepers, namely, strong colonies consisting mainly of young bees; plenty of wholesome stores for the winter, and adequate protection from the cold.

While a fertilizer relatively high in potassium without excessive nitrogen seems desirable for potatoes, phosphorus appears to be the most important nutrient in increasing the early and the total yields of tomatoes, with nitrogen second and potash third in importance.

Canada's exports of butter in July totalling 6, 749 pounds, the countries of origin being: United Kingdom 6, 216 at \$1,102, United States 495 at 134 and New Zealand 38 at 87.

There is a relation between tree rings and wheat yields in southern Saskatchewan. However, the lack of short cycles makes prediction of wheat yields from tree growth impossible.

Every Man In His Place

REV. W. FRANKLIN HARKEY, HOUSTON, PA.

"And they stood every man in his
place round about the camp."—
Judges 7:21.

Here in the book of Judges we have the story of the struggles and combat this world has ever seen. The story is familiar. Israel had been oppressed by the Midianites. Men everywhere were fearful and afraid. They carried on their work behind closed doors. No one in Israel was brave enough to back their foes. But, God always has a man for emergency. When the church lapses into lethargy or indifference God brings on a Moody, or a Wesley. So Gideon is called, but like most of us under similar circumstances, he hesitates to answer the call of God. God found a man after his own heart in Gideon. An army for Gideon is also provided. Strange to say, there are two men in Gideon's army. So, by a sifting process an army of three hundred men, valiant and strong, is brought to Gideon's aid. Twenty-two thousand are debarré because of their own confession that they were afraid. In a unique test, nine thousand and seven hundred more were excluded.

With three hundred men God brings a great victory to Israel. Naturally, we ask, what was the secret of their great victory? Wherein lies the power for such achievement. If we will look underneath this story we will find a suggestion for the church today. Here it is. "And they stood every man in his place round about the camp." We sometimes lament that the church is losing ground. We wonder where the secret of victory lies! What are the suggestions that come to us from this old story?

A great work is to be done. God has his work for us to do today, as he had for Gideon. The forces of evil are as menacing now as the enemies of Israel were then. Gideon's enemies were as grasshoppers for a multitude. How fitting that comparison "as we think of the church that fight against God's people today. We face a multitude of enemies. It is no time for the church to take her ease. "Woe to them that are at ease in Zion." Evil in high places and in low challenge the church of the living God. On the plain of the pliancy judgments upon a people of old which has been echoed across the centuries is this, "Cursèd ye, Meroz," said the angel of the Lord, "curse ye bitterly the inhabitants thereof; because they came not to the help of the Lord, to the Lord against the Lord against his might."

Morgover, evil is made exceedingly attractive. The story of two men discussing the personality of the devil is apropos. "Do you believe the devil has horns and hoofs?" the questioner said. "No," said the other. "If he had, the beef trust would have had him long ago." Evil is made more attractive to lure you now than ever before. Modern science and invention have made it so. The church must act to win youth to Christ. We have not done all we might do when we have given them one hour of religious instruction a week. Goodness must be made attractive. Many avenues of service are open to the church and it is well that we be about our Father's business. The conflict between good and evil continues. Christ is counting on his people to carry on his work in the world. In every community there are those who are away from Christ and the church. If that Gospel has blessed our own lives, then, it should be given to others.

Then, there are those within the church who need their zeal intensified. We are all aware of the tremendous pull of the world, the alluring enticements of things that should be secondary. While the call to worship is being sounded, into the ears of multitudes is being sounded the call to other things. Over against this condition of things lies the open door for an enlarged service for God. While the alien voices of the world are being heard the still small voice of God challenges to definite service for the souls of men.

The Call to Service.
Let this call to service be heeded. Gideon achieved his success because every man stood in his place. A church is no stronger than its members. It is a common saying, but it bears a suggestive truth. The example of the three hundred presents a call for every member of the church to co-operate and hold

himself in readiness for service. The church is organized on the every member basis. When one member fails, to that extent the church fails. Religious faith is a personal thing. The call of God comes to each man. Jesus called each disciple, "Follow me." Idleness is a prelude to death. Gideon had 25,000 men who were not willing to work. How about our modern church and those on our church rolls who have a name to "live but are dead?"

A bishop on a foreign field inquired of a missionary, "How many missionaries have you?" The reply was, "Thirty-five hundred." The bishop said, "You misunders and me. I did not ask how many converts you have, but how many missionaries." "No," replied the missionary, "I did not misunders and you, for every one of our converts is a missionary." Nehemiah said, "We built that wall because all the people had a mind to work." Wesley's idea was this, "Give me one hundred men who fear nothing but God, hate nothing but sin, know nothing about men but Christ, and I will take the world." It is to every man becoming a to-oh-beer that the Gospel is given to men.

Furthermore, this larger service will be realized when every member becomes an intercessor. An every member praying church is needed. The normal life of the church ought to be characterized by all of its members working together with one another and with God. God is saying in loving accents, "Command ye me." When we pray we release Divine Power. There will be no awakening of religious fervor until the Lord's people turn to pray. When the flood gates of intercession are opened moral and spiritual revival flows in.

The Assurance of Victory
This noble band of three hundred achieved victory with these words as their motto, "The sword of the Lord and Gideon." Success came because God was with them. Concentrated leadership plus God makes an invincible force in any day. The church moves like a mighty army through its membership co-operates with God and is responsive to his will.

The frailest and meanest implements dedicated to God will be the means of victory. For, is it not written, "It is not by might, nor by power, but by my Spirit, saith the Lord of hosts." The sad story back of Israel's constant failures is found in these words, "Israel forgot the Lord." And we cannot forget another description which says concerning the piteable plight of the people, "Israel was greatly impoverished." If the church is impoverished today, materially and spiritually, it is not because God is not rich. Ours is an age often superficial and sophisticated, but nevertheless an age poignantly in need of God. The assurance of him in the lives of his disciples is a desperate need now, even as it was when Jesus lovingly said to his disciples, "Lo, I am with you always, even unto the end of the world." Conscious of that fact, the church will find herself, carry on her noble work, and find a source of strength in God.

THE CHRISTMAS ROSE

Christmas roses should be planted in September in deep, well-drained sandy loam. The Christmas rose, as the Dominion Horticulturist has pointed out, is not really a rose but bloom at Christmas if the climate is not too severe. In Ottawa it blooms up to February and may be plucked if the snow is removed. An amateur gardener in that city grows Christmas roses successfully by covering the plants with a box in the fall, which prevents the delicate flowers from being spoiled by the weight of snow. The flowers are white, sometimes tinged with pink. Helleborus niger is its technical name.

COOKED CELERY SALAD

Cut celery stalks in one inch pieces. Cook 15 minutes and drain. To the hot celery add the following mixture: 1 egg, 1/2 teaspoon mustard, 1/2 teaspoonful salt, 1 tablespoon flour, 2 tablespoonful lemon juice, 1 cup liquid in which celery was cooked. Cook 5 minutes, stirring constantly. Chill and serve on lettuce.—Fruit Branch, Dominion Dept. of Agriculture.

ITEMS of INTEREST
TO THE FARMER

SOIL EXHAUSTION

A 25-bushel crop of wheat (grain) removes from the soil about 30 pounds of nitrogen, 12 pounds of phosphoric acid, and 7 pounds of potash. A 200 bushel crop of potatoes (tubers) removes about 42 pounds of nitrogen, 118 pounds of phosphoric acid, and 60 pounds of potash. If the mean of these figures for wheat and potatoes is taken as a basis it is assumed that the average amounts represent the normal draft made by the growth of crops on the three plant food substances (nitrogen, phosphoric acid and potash) it may be estimated that cropping results in an annual loss to the soil of 36 pounds of nitrogen, 15 pounds of phosphoric acid and 33 pounds of potash.—Dominion Dept. of Agriculture, bulletin on Manures and Fertilizers, Their Nature, Functions and Application.

TURNIPS FOR SHEEP

While there is little danger of over-feeding roots to sheep, the quantity which can be profitably fed is limited. When feeding 1 1/2 to 2 pounds of hay, approximately 1 1/2 to 2 pounds of roots may be fed per head per day. Occasionally, as much as 4 pounds may be fed profitably, but, when feeding roots, the point must not be lost a bit of, says the Dominion Horticulturist, that they are usually useful as a source of succulence, and a relatively small quantity is effective for this purpose. Mangels are not as safe a feed as turnips, particularly for rams. Carrots can be used successfully to take the place of sweet turnips, but are a less reliable crop in that they are more difficult to grow with success. No class of sheep derives more benefit from roots, particularly sweet turnips, than the breeding ewes.—Dominion Department of Agriculture.

EXPORTS OF EGGS IN JULY

Bermuda and Newfoundland were the chief buyers of Canadian eggs exported in July. The total was 12,024 dozen, compared with 38,824 in June and 15,006 in July, 1932. Bermuda and Newfoundland between them took almost 11,000 dozen last month.

MILK PRODUCTS EXPORT
DECREASING

The export of milk and its products in July totalled in value \$1,382,867 compared with \$667,206 in June and \$2,668,563 in July, 1932. Practically the whole of this export goes to the United Kingdom. For some time it has been running considerably less than a year ago.

FALL LITTER FEED

The fall suckling pig which has been fed at five weeks of age on a supplementary ration of equal parts of middlings and finely ground oats from which most of the hulls have been sifted, is in good shape for the weaning ration which should be fed sparingly three or four times daily the meal being preferably soaked and fed as a warm slop with milk. Middlings 300 pounds, oats 200, shorts 100, barley or corn 100, bran 50, is an excellent ration up to four months of age. Where middlings cannot be secured, the following mixture is good:—Oats 300, shorts 200, bran 50, corn or barley 100. Bran is a very necessary addition to the ration of the winter-fed pig.—Dominion Animal Husbandman.

The movement of cattle this year to Great Britain up to August 31 totalled 33,255 head, as compared with 16,093 for the same period last year.

Fruit should be picked as far as possible in the cool of the day and never whilst wet from rain or dew.

A double nitrate of calcium and magnesium is reported to have been developed in France as a fertilizer. It contains 15 per cent of nitrogen, 7 per cent of water-soluble magnesium and 16 per cent of water-soluble calcium.

TULIP PLANTING

Tulips may be planted from the end of September to November, said the Dominion Horticulturist. October no doubt, is the best time. The soil need not be rich. Any ordinary garden soil is suitable but it should be well dug and drained. A position in full sun suits them best but they will bloom in half shade for a season or two. The bulbs may be left in the ground until they become crowded and the flowers are small, or they may be lifted each year. The time to lift them is when the foliage is turning brown, or, if the space is needed earlier than this, the bulbs should be planted in a trench in a shallow trench in the back garden until the foliage dies. The bulbs should be stored in bags and kept dry all summer. In the fall, the large sized ones may be replanted in the border, and the smaller ones planted in a row in the vegetable garden for a year or two until they grow to blooming size.

Pigeon breeders consider that no pigeon ration is complete without Canada peas.

The fanning mill is one of the best friends the farmer has.

Up to August 31, for the first 35 weeks of this year, 2,086,626 hogs were graded in Canada.

BODY BUILDING FOES

Minerals which build up bone and teeth in human beings are found in the following food—milk, butter, milk cheese, lean meat, liver, eggs, spinach, dried peas and beans, rilled oats, carrots, potatoes, string beans, cabbage, cauliflower, celery, turnips, peanuts, apples and oranges. The foods which produce iron to build up the blood in the human body are liver, lean meat, spinach, molasses, bran, whole wheat, rolled oats, potatoes, carrots, turnips and peanuts.—Edith Elliot and Laura Cooper in "Healthful Meals at Low Cost," issued by the Dominion Department of Agriculture.

JULY PRODUCTION
OF AUTOMOBILES

Production of automobiles in Canada during July numbered 6,540 units as compared with 7,323 cars in July of a year ago. The decline from the previous month was altogether accounted for by the drop in cars made for sale in Canada to 4,562 from 5,522, while the number made for export advanced to 1,978 from 1,801.

The apparent consumption of cars in Canada during the month, as determined by adding the 4,562 cars for sale in Canada to the 1,811 imported, amounted to 4,743 cars. For the seven months ending July 31, a total of 44,802 cars were produced, 1,110 were imported and 5,054 exported.

1,543 divorces were granted by Albertans in a period of twelve years, the figures covering a period from 1919 to 1931, inclusive. There were only 22 divorces in the period from 1906 to 1918, during which time it was necessary for divorce applicants to take their pleas to parliament at Ottawa. In 1919, when Alberta courts were empowered to grant divorces, 36 divorces were granted. The figures reached a peak in 1928 with 168. In 1921, 81 Albertans secured divorces, which meant 1 to 7,005 persons since the population was 53,454 in 1931, with the population 731,005 there were 151 divorces or 1 to 4,750 persons.

The "forgotten man" has been discovered. He is the fellow who thinks he doesn't have to advertise "because everybody knows me," says a care'll observer.

"Eddie's feeling fed up to-day."

"Why?"

"He took his girl to Tony's for lunch. While they were dining she discovered a fly in the soup."

"Waiter!" she said, "remove this insect!"

"Well?"

"They threw Eddie down two flights of steps."

WORLD HAPPENINGS
BRIEFLY TOLD

Two military aeroplanes collided in the air at Kielce, Poland, killing four occupants.

T. A. Love, Grand Forks, B.C., was elected president of the British Columbia-Yukon Weekly Newspapers Association.

Robert Van Rullighem demonstrated at Brussels, Germany, a miniature aeroplane which, he contends, is proof against fire and heat.

Brazil's new "pure coffee" law has become effective and hereafter stores can sell only coffee fresh from the roaster. Ten days old is the limit.

The world Jewish Conference closed its sessions by adopting a resolution calling for a boycott on German goods until the rights of Jews in Germany have been restored.

The radio station at Cameron Bay has been destroyed by fire, it was learned in a radio message received at Churchill. No details regarding the blaze were given. The cause of the fire is not known.

Samuel Brislin, 73-year-old chief engineer of the "Noronic," flagship of the Northern Navigation fleet, has seen 52 years' service on the lakes, his anniversary being held recently.

Discussion of plans for the Canadian Medical Association Convention in Calgary in June, 1934, has resulted in a decision to invite the Prince of Wales to attend as the prince's birthday, June 23, occurs during convention.

"Calgary Fish and Game Association has decided to start an investigation of the disease which has killed thousands of ducks in southern Alberta this season, the heaviest toll occurred at Stobart Lake, about 42 miles from Calgary.

Sir Gilbert Christopher Wyle, prominent financier and engineer who acted as industrial adviser to the Imperial economic conference held in Ottawa last year, is dead at his home in Birmingham, England. He was 63 years of age.

A Queer Voyage

Trip From England To The Black Sea In Hand Propelled Boat

Oddest of many queer voyages attempted in recent years is the trip which two Edmonton, England, men have started with the Black Sea as their goal. Their collapsible boat made of a form of aluminum is operated by pedals and hand propellers. Four knots is the estimated speed of the boat, which weighs about a quarter of a ton. The itinerary is from Southampton, through the Bay of Biscay, past Gibraltar and into the Mediterranean, then along the northern African coast and so on, to Varna is the destination of the boat, but a will be made at Constantinople, and the return will be by way of the European coast of the Mediterranean.

Scientists Are Puzzled

Have No Theory About Weird Noises Over Yellowstone Lake

Yellowstone Park rangers and scientists are still pondering, after 50 years of mystery, over the strange sounds heard over Yellowstone Lake every morning in the late summer. The weird inexplicable noises begin like the muffled sound of a drum, rise with whirring, flapping wings, rise quickly in crescendo and end as a sustained note with distinct rhythmic quality.

All theories so far offered for the phenomenon have been dispelled by observations.

Germany's Floating Airport

Anchored In Southern Atlantic And Is Fully Equipped

The German ex-lier "Westfalen" has been taken from Cuxhaven, Germany, to the Southern Atlantic, where it is anchored between South America and Africa as the landing place for German passenger planes to South America. It recently carried out trial trips near Kiel. The "Westfalen" will be a complete floating airport, with equipment for refueling and repairs. It has a canvas landing stage on which a plane may taxi, and take off will be by catapult.

Mutual Interests

Two men were travelling on a northbound train, Princeton, N.J., hoping to break the ice, asked his fellow traveller:

"What's your line of business?" "It may sound strange," said the other, "but I'm a pepper traveller."

The first man threw out his hand. "Shake!" he said. "I'm a salt seller."

VARIOUS POINTS ABOUT THIS SMART DRESS HAVE BEEN THOUGHT OUT FOR MATRONS

For instance, the one-sided softly falling rever cuts the bodice breadth. Still more helpful perhaps is the unbroken line, created by the partial belt arrangement, which gives height to the figure. The inset panel at the center-front, also does its bit toward slenderness.

Style No. 438 is designed for sizes 36, 38, 40, 42, 44 and 46 inches bust. Size 36 requires 4 1/2 yards of 39-inch material with 1/2 yard of 10-inch lace. Plain crepe silk is splendid in beige, grey, or dark blue.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Suggests Debt Settlement

Sir Harry Armstrong Has Idea For Britain and United States

Sir Harry G. Armstrong, formerly Canadian-General at New York, has written on the payment of the War debt problem and especially on the debt of Great Britain to the United States. He discusses what is expected by Britain to do, and then he makes certain suggestions as a compromise or at least as a practical suggestion for settlement.

This comprises cutting the amount to about one-fourth its present nominal amount, or \$4,600,000,000 estimated debt to \$200,000,000 to be paid in a single sum in sterling gold bonds bearing 3 1/2 per cent. interest, which would be probably cashed in Europe giving the gold to the United States at once. This simply amounts to putting Great Britain through the bankruptcy court and accepting about 22 cents on the dollar, which is usually considered a very good settlement.

When it is considered, moreover, that it takes fully twice as much of British merchandise to pay a dollar today as when the debt was contracted, and that all securities and industrial investments have depreciated similarly such a payment is a very fair one and the creditor is fully justified in asking its acceptance. Hamilton Herald.

Preventing Honey Spoilage

In helping to prevent honey spoilage, the division of bacteriology, Dominion department of agriculture, has evolved a method by which an examination of freshly extracted honey will indicate whether the honey may be expected to remain safe from fermentation within one year.

It isn't the cost of getting men into office, but the upkeep that hurts.

Busy On New Theory

Einstein Pleased With Quiet Refuge On Norfolk Coast

Anybody attempting to molest Albert Einstein in his humble refuge on the Norfolk coast may get bullets from the guns of his game keepers.

And if Commander Oliver Locker-Lampson himself is around, any intruder may have to face the revolver which the member of parliament reputedly is carrying while the celebrated mathematician is under his protection.

Professor Einstein arrived from London fleeing reported Nazi threats against his life, and set about at once in his quiet, tree-surrounded retreat to work on a new mathematical theory—the nature of which was not disclosed.

He said he was not responsible for the "Brown Book" which incited Hitlerite wrath and which, Nazis alleged, was a compilation of victims of persecution.

Sitting in a small hut in a garden facing the North Sea, the professor looked smilingly content as he puffed his pipe and spoke of the Nazi threat against him.

"All I want is peace, and where could I find a more peaceful retreat than in England?" he asked a visitor.

Recipes For This Week

(By Betty Barclay)

CHEESE BISCUITS

1 cup sifted flour.
1 teaspoon combination baking powder.

1/2 teaspoon salt.
1 tablespoon butter or other shortening.

One string of onions will extend from Toronto, Canada, to the southern tip of South America. Another will be operated by the British Astronomical Association and will extend from Norway through Africa.

The third will start at Tokyo, Japan, and extend through Australia. The observers will gather data on the speed and direction of fall of the meteors. Professor Byrd will operate the southernmost station of Little America, he said.

CALIFORNIA PRUNE PIE

2 cups cooked prunes.
1 orange.
1/2 cup brown sugar.

1/2 teaspoon salt.
2 tablespoons butter.
1 cup liquid from prunes.

2 tablespoons cornstarch.
Baked pastry shell.
Meringue, flavored with few drops lemon extract (use 2 egg whites).

Pit prunes and cut in half. Peel orange, removing white inner part completely, and dice orange. Combine prunes, orange, sugar, salt, butter, prune liquid, and bring to a boil. Dissolve cornstarch in 2 tablespoons cold water, add to boiling mixture and cook until thick. Pour into baked pastry shell, cover with meringue and brown in a moderate oven (330 degrees Fahrenheit) for 15 minutes.

Cattle For Britain

A second shipment of beef cattle exported within a month to Great Britain by the Western Block Growers' Association was shipped recently. The consignment totals 332, Alberta ranchers contributed 120 head and the remainder came from seven Saskatchewan ranches.

An average of 600 cabs are laid up for repairs in London at all times.

PRESIDENT OF CUBA

Dr. Roman Grau San Martin, University Professor, who will form new government.

Gathering Data On Meteors

Observers Will Check Progress During Byrd's Expedition To South Pole

One hundred and twenty sky observers, located at points all over the world, will check the progress of meteors during Commander Byrd's south pole expedition.

Byrd's chief astronomer, Prof. J. Poulter of Mount Pleasant, Ia., has made arrangements for these observation stations, which will form three progressive lines from the north to the south pole.

One string of stations will extend from Toronto, Canada, to the southern tip of South America. Another will be operated by the British Astronomical Association and will extend from Norway through Africa. The third will start at Tokyo, Japan, and extend through Australia.

The observers will gather data on the speed and direction of fall of the meteors. Professor Byrd will operate the southernmost station of Little America, he said.

Sheep Had Long Trek

Large Flock Driven Thirteen Hundred Miles In Australia

After passing through country generally considered impassable, Drover Jack Brady and eight helpers have just completed a drive of 7,500 sheep for 1,300 miles from Mackay to Snowtown, Australia. To water the animals in desert spots a pumping plant and troughing was carried. The trip required 20 weeks, and at night a guard against raids by wild dogs was necessary. Only 300 sheep died on the trip.

One Sign Of Prosperity

English People Buying Good Golf Balls And Bicycle Tires

Prosperity surely is on the way, declared Sir Eric Geddes, chairman of England's largest rubber manufacturing concern, at the annual meeting in London. "People are buying first grade golf balls," he said. Also they are buying bicycle tires again. "These are quite useful barometers to show whether our people are feeling good or bad about their petty cash," he added.

SEPTEMBER 24

REVIEW: SOME EARLY LEADERS OF ISRAEL

Golden Text: "Be strong in the Lord, and in the strength of His might."—Exodus 17:13.

Devotional Reading: Hebrews 11:22 to 12:2.

A Review By Means Of Allusions

"A man who has had the advantage of intellectual training cannot escape the penalty of his wickedness when he barters his brains for a mess of pottage."

When generous acts bloom from unselfish thoughts,

The Lord is with us, though we know it not.—Lucy Larcom.

Happy the heart that keeps its twilight hour,

And, in the depths of heavenly peace reclined,

Loves to commune with thoughts of tender power.

Thoughts that ascend, like angels beautiful,

A shining Jacob's ladder of the mind!

—Paul M. Hayne.

If I am only an instrument for gathering materials and another shall build the house, I trust my joy will be none the less.—William Carry.

"The moment we move, the dog is after us. He says in effect, 'Where thou goest, I will go.'"

"There is waiting for you an inheritance—some promised Hebron, some gift of God's infinite love in Christ. It is for you to say, 'Give me this mountain!'"

"O, give me Samuel's ear, The open ear, O Lord, Aliver and quick to hear Each whisper of Thy Word!"

"Latest born of Jesse's race, Wonder lights thy bashful face, While the prophets gifted old Sees thee for a path of toil."

And his next son, for wealth, and wisdom famed,

The clouded ark of God, till then in tents

Wandering, shall in a glorious temple shine.—Milton.

You won't do much until you think it's God,

An' not constituents, that holds the rod;

We want some more o' Gideon's sword I judge.

For nonchalantness ha'n't no gret o' edge.—Lowell.

Uses Novel Method

King Boris Gradually Getting Better Roads For Bulgaria

King Boris of Bulgaria, ardent motorist, wants good roads for his realm and has found a novel way of getting them.

Every time he drives his car over a bad and bumpy stretch, he notes its exact location, and next day invites his minister of highways and land communication to lunch or dine with him.

A royal invitation is equivalent to a command. Trembling, the minister obeys. After coffee and cigars, the king suggests a little ride into the country. The minister has to reply that he would be only too delighted and honored.

Once the patch of road is reached, the monarch takes the wheel himself. Driving at first slowly, he gradually steps on the gas until he is hitting the seventies.

He takes care to see the minister is in the back seat, over one wheel.

Once he is able to observe the anguished ministerial features. Once the drive is concluded, he turns around blandly and says, "You see, Your Excellency, our roads are not so bad, after all!"

The next day sees a sizeable working gang mending the offending highway.

C.W.N.A. Officers

Charles Clark, Of High River, Is Elected President

Charles Clark, of High River, Alta., was chosen president of the Canadian Weekly Newspapers' Association at the concluding session of the association's convention at Vancouver. Delegates wound up their business while on a boat trip from Vancouver to Powell River, B.C., 70 miles up the coast.

Directors include: Saskatchewan, Donald Dunbar, Estevan; John Scott, Whitehead; S. J. Dornan, Alameda; Andrew King, Rouleau; Cameron McIntosh, North Battleford; Sam Wynn, Yorkton.

Heavy Articles Stolen

Believe it or not, records of the Philadelphia police department show the following ponderous articles have been stolen from their distracted owners in recent months. One front porch, any number of safes weighing half a ton and more; a cannon (from a public square); two granite blocks about four feet square; a brand new telephone pole, an automobile engine and two steel girders.

If sleep is conducive of beauty some people must suffer from chronic insomnia.

Problem For British Banks

No Way To Stop Deposits From U.S. Citizens

A large volume of "unwanted" United States money being deposited in banks of the United Kingdom constitutes a problem that so far has defied solution, two prominent United Kingdom delegates to the British Commonwealth Relations Conference said at Toronto.

"The bank rate in England is very low now," Viscount Cecil of Chelwood, chairman of the United Kingdom group, said in an interview. "And one of our chief problems is the flood of unwanted money that is pouring into the banks. These funds, deposited in the main by United States investors, are subject to withdrawal at 24 hours notice and are of little or no value, though it has not been recovered yet how to get rid of them. Their deposit appears to be actuated by a desire on the part of the depositors to find the safest place possible to house their assets."

Viscount Cecil was confident England was on the road to economic recovery. He said a great deal of building was going on throughout the country. Road construction was another feature of development prominent this year.

Expedition To South Pole

Rear Admiral Byrd On Quest Of New Territory For U.S.

With a crew of 70 scientists and adventurers, Rear Admiral Richard E. Byrd, is sailing on his second expedition to the Antarctic.

The aim of the expedition is twofold: To chart and claim for the United States any areas of ice recession about the South Pole, and to determine the extent of deposits of oil, coal and other natural resources.

The aviator and explorer announced his plans after arranging for the aerial details of the expedition.

"We all feel that the steady recession of ice should have left some 500,000 square miles of land about the South Pole, Byrd said—a trace of excitement in his voice as he talked of his new venture.

The bulk of this land, the explorer said, should be between the South Pole and South America—most of it adjoining Evelyn Byrd Land, named for his mother—which was claimed for the United States on his expedition of three years ago.

Power Of Hypnotism

London Doctor Can Influence One Patient Over Telephone

How he hypnotizes a patient over the telephone was told by Dr. Hildred Carill, of London, during a lecture in Westminster Hospital. "This patient," he said, "has had to be hypnotized many times. The man has become so saturated with my dominance and so amenable to my suggestions that there is no need for him to be in the room. If he were in Paris and I telephoned him he would do exactly as I told him. If you are wise you will not lightly allow yourself to be the subjects of hypnotism. It is not worth the terrible abuses. Yet in certain conditions people can be cured in a day with the judicious help of hypnotism."

New Use For Radio

Installed As Means Of Communication On Russian State Farms

State and collective farms have grown so large in the U.S.S.R. that something had to be done about communication between various sections. The Institute of Electrification of Agriculture reports that it has installed radio receivers and transmitters on the tractors of one farm near Leningrad and solved the problem. The boys and girls now plow merrily along and pass the time away chattering with one another over a distance of many miles.

Old Clock Recovered

Made By Ticket-Of-Leave Mechanic And Had Long History

After a search of many years W. J. Cartwright, of Tremora, Australia, has recovered a clock with a long history. It was made by a ticket-of-leave mechanic in Maquisarie's time and originally belonged to the pioneer Anglican clergyman, Rev. Robert Cartwright. Following the cleric's death in 1856 it was sold and taken to New Zealand, where the present owner found it.

Excellent gears have caused an appreciable improvement in trade in Denmark.

Finland has ruled that employers must insure domestic servants against accident.

WELL! IF IT ISN'T MY OLD FRIEND, CHARLIE CRUMP.—The Humorist, London.

The special divine service he'd in the Presbyterian church Sunday night was well attended.

A full writeup will appear next week regarding the Dedication of the Rosedale Church.

CLEAR LAKE NEWS

Mr. and Mrs. Henry Mackford, of Coronation spent the weekend at Clear Lake. They were accompanied by Miss Muriel Charles, also of Coronation.

Miss Alberta Davis of Arm Lake expects to leave for Three Hills soon to attend the college there. The St. Patrick's W.A. of Heath, met at the home of Mrs. Cummings on Thursday last, with fourteen ladies present. Miss Hough and Mrs. Cummings were hostesses for the afternoon.

Mr. and Mrs. Carl Buckner motored from California to visit Mrs. Buckner's parents, Mr. and Mrs. Cummings, of Heath.

Miss Spence, school teacher at Heath received news of the serious illness of her father in Edmonton. A new residence is being erected at Heath on the property of Alberta Pool Elevator.

Rev. G. W. Wilson, presented the St. Patrick's church, of Heath, with a bronze cross on behalf of the Sunday school of which he was a teacher before coming to Canada.

McAFFERTY ITEMS

Dr. Moore, of Edgerton, is very busy giving serum to about forty children as a preventive against Whooping Cough, our thanks are due to the party who ignored the Health Act.

McAfferty Junior U. F. A. gave a farwell dance on Friday for Elvin Spence, who is leaving for the second year at the University of Alberta.

There was some threshing done Friday, grading tough.

H. C. Leck has just finished harvesting a good crop of plums and cherries.

I saw L. Guy's tractor in the hospital today. Dr. Mac about to remove its intestines.

Archie House, of Browning, is to be congratulated upon the arrival of his son and heir.

EDGERTON RIPPLES

Members of the local C. G. I. T. group gathered at the Edgerton Manse on Tuesday evening to reorganize for the coming winter. A presentation was made by Joy Davidson, on behalf of the girls, to Mrs. Stratton, who has resigned from the leadership of the group. The new leader, Miss Helen Guley was introduced to the girls after which a very interesting evening of games, songs and contests was enjoyed by all. Mrs. Baintledge served refreshments and all went home feeling very happy.

Henry Spencer, M.P., left last week on a speaking tour in his constituency.

Cold winter weather is making everybody put up the heater, and make inquiries as to the price of coal. Trenching is progressing very slowly, Oh, for our Indian summer.

Mr. Elvins Spencer is leaving this week to continue his studies at the University of Alberta.

The Edgerton Valley Ladies' Aid met at the home of Mrs. Hill last Thursday. A good number of the members were in attendance, and the meeting was enjoyed by all.

In the absence of Dr. T. M. Mitchell, who was called to Vancouver to see his brother who is dangerously ill, Dr. F. S. McCall arrived on Saturday evening to conduct the opening services in the Rosedale United Church. We understand that an account of this is given in another column so we will make no further comment.

Mr. Anderson, accountant in our town, left on Saturday afternoon, destination unknown. The car behind his car, combined with his activities around a certain house in town during the past week, would suggest a wedding "Arra loy."

Dr. F. S. McCall, during his stay in Edgerton, was the guest of Rev. and Mrs. Eimbridge, at the Edgerton Manse.

Harvest Home services were held in St. Mary's church on Sunday where large congregations greeted the local minister.

Several of our Wainwright friends including Rev. Zook, Mr. McDonald and the carpenters who built the church, were in attendance at the opening services at Rosedale on Sunday. Come again.

Edgar Avison and Miss Avison left on Friday evening for Ontario accompanying the body of their father.

Rev. H. B. Ricker, of Rhinestone, was a visitor at the Edgerton Manse on Friday afternoon.

Born—To Mr. and Mrs. H. Pilgrim of Heath, on September 21st, a girl.

LOCAL ITEMS

Mr. Howard and Miss Sadie Cotton and Mr. Joe Lewis, of Macklin, attended the funeral of Mr. Olm Avison, of Rosedale.

Mr. and Mrs. C. O. Carlson, of Edmonton, spent the weekend here. Hugh Little was here in view of locating on a farm.

On Monday we had a slight snow fall but not enough to stop threshing, as several machines were running. Some wheat is being marketed.

Mr. Robert Maughan is improving very nicely and is out home for a few days. He has been staying with his daughter, Mrs. McBeth since he came out of the hospital.

Mr. and Mrs. Alderman spent the weekend in Edmonton.

John Addinison, of Halifax, Nova Scotia is visiting relatives and friends.

Frank Dixon left last week on his return trip back home.

H. C. Montgomery went to Edmonton, on Monday to act as a jurymen.

Rally day services were held at the Presbyterian and the United churches last Sunday.

Mrs. G. C. Torg returned last Tuesday from Vancouver where she had been on a short visit.

Alex Wright, of Excel, Alberta, purchased the W4 946.5. W4th.

Through the local C. P. R. agent.

Mrs. Bell, who has been in the Royal Alexandra Hospital in Edmonton for several weeks, taking X-ray treatments, returned to her home in Wainwright on Saturday.

She says she is much improved in health and glad to get back home.

Sir Sidney and Lady James and daughter Phyllis, have spent the past week with Mr. and Mrs. A. Roberts, of Wainwright on their way through to Banff.

Sir Sidney and Mr. Roberts were old school and college friends both having been at Harrow and Magdalen College, Cambridge, at the same time.

Sir Sidney is now actively engaged with the Cunard Steamship Co. while Mr. Roberts farms seven miles north of Wainwright.

Frankie, the youngest child of Mr. and Mrs. W. J. Daugherty, has been very ill and is not much better at this writing. We wish him a speedy recovery.

Bruce Hodley, of Irma, is replacing George Glass, while George is on a holiday.

The private car of Sup. A. E. Macdonald, was side-tracked here on Wednesday and was picked up by N. B.

Some improvements are being made at the Municipal Hospital.

Opalo Plums, grown by Mr. W. W. Avison, Heath, Alberta. Mr. Avison, stated that he grew the plums in his own back yard, bearing at two years of age.

The Presbyterian Church will hold their annual supper on Tuesday, October 3rd, in the Elite Theatre. They will hold their annual bazaar on November 18, in the I. O. O. F. hall.

Several of our local nimrods are disappointed that duck season has been very good. Some geese have been killed.

Members of the Oxford Group of Calgary and Edmonton, held a meeting in the Elite Theatre Monday night. We may say more about it next week.

Wainwright Tennis Club brought back the Cork Cup with them from Chauvin where they played last Sunday.

(continuation of Council Meeting)

3. That, when all arrears no standing against any of such properties are fully discharged by payment of rental or otherwise and all other conditions herein fully fulfilled, the Town of Wainwright will enter into an agreement to sell the property to the former owner at a price equal to the amount of taxes then standing on the roll against the said property as taxes levied thereon subsequent to the year 1933, on payment of which price the Town of Wainwright will issue transfer in favor of the purchaser.

4. That on failure to make the payment required to be made on or before the last day of November next or on failure to pay the rental required on the 15th of each month until ten days after the specified date or on failure to observe all other conditions within a reasonable space of ten days after they should be observed, the Town Solicitor be instructed to take necessary proceedings to obtain possession and upon possession being obtained Council deal therewith as it may deem proper.

Public Notice

TO THE
ELECTORS AND RATEPAYERS
OF WAINWRIGHT CATHOLIC
SEPARATE SCHOOL DIST.
NO. 31

By-Law No. 1

A By-Law relating to the issue of Debentures of the Wainwright Catholic Separate School District, No. 31, of the Province of Alberta.

Whereas it is necessary and desirable that the sum of \$7000.00 or less dollars should be borrowed on the security of the Wainwright Catholic Separate S. D. No. 31, of the Province of Alberta, for the purpose of erecting a school building, purchasing land and equipment. School to be frame-stucco finish. Repayable to bearer in ten days or even equal consecutive annual instalments with interest at 6 1/2 per centum per annum.

Now, therefore, the Board of Trustees of the said District enacts as follows:

1. That the necessary proceedings be taken under the School Act to obtain the sanction of the Board of Public Utility Commissioners of Alberta to the said loan.

2. That upon the Board of Public Utility Commissioners authorizing in writing the Board of Trustees to borrow the sum of Seventy-three hundred dollars or any less sum, pursuant to said Act, debentures of the said District be issued for such amount as is authorized, payable to bearer in ten or eleven consecutive annual instalments with interest at 6 1/2 per centum per annum, payable annually and said debentures shall be executed by the Chairman and Treasurer of this Board.

Done and passed this 6th day of September, A.D. 1933,
